Mr. Gompers said labor has implicit confidence in the leadership of President Wilson and predicts that he would be a "tower of strength" at the peace table, but he warned that all the delegates from countries sitting at the peace table and devis-ing the terms of the treaty, are not prompted by the highest spirit of freedom and justice and democracy. "The time has gone." he asserted, "when the working people of America can again be put in shackles, that it labor of human beings is commodity or an article of commerce."

BIG FOUR TO SETTLE MAIN PROBLEMS

AFTER THIS MINORS TO BE CALLED TO PARLEY.

Perfect Agreement on Principles to Determine Methods of Application of Terms.

(By John M'Hugh Stuart.) Paris, Dec. 2 .- (I. N. S.)-The of peace by the United States, Eng. land and France is presaged by reflections and interviews from Premier Clemenceau and leaders of the French liberal parties.

The "big four" will not call the minors into consultation until prac-tically all of the big problems are settled. Probably the German rep-resentatives will not be called into the conference until all but the unimportant details are to be arranged, thus throwing the final seasions well into next year, and possibly result-ing in a permanent commission to carry out the terms of peace, thereby

arriving at a real society of nations. The impression that the first-class powers will come to a satisfactory agreement is confirmed by the mention in well-informed quarters that Leon Bourgeois will be a French plenipotentiary.

M. Bourgeois is one of the foremost

M. Bourgeois is one of the foremost advocates of a society of nations and was France's envoy to The Hague conference. He has frequently ex-pressed advanced views on the ques-tion of international organization. The apparent agreement of prin-ciples is leading observers to sketch a program for the parley that will follow the results of the conference of President Wilson, Premier Cle-menceau, Premier Lloyd George and Premier Orlando, beginning Dec. 16. There will be a perfect agreement. it is believed, on principles to deter-mine the methods of the application of the terms. Much now depends upon the developments in Germany, Austria and Bulgaria.

It is pointed out that the German situation must be cleared up before it can be determined if Germany is eligible to membership in a league nations. The size of Germany nately will be worked out from the Austrian, Polish and Danish prob-lems. This will be a factor also in determining the treatment of Ger-many by the associated powers,
